Justification for attending the MAGC Conference

All gifted programs in the state of Mississippi are governed by the 2023 MS Department of Education (MDE) Regulations and the 2013 MDE Standards for the Gifted Education Programs in MS. **The MDE Standards speak specifically to professional development for educational personnel pertaining to the social-emotional guidance and counseling of gifted students, professional development pertaining to teaching gifted students, and professional development designed to address gifted student identification and assessment.** The MAGC Executive Board members realize the difficulty that local school districts have in providing this very specific, on-going, PD training for staff who teach the gifted population. Therefore, it is the intention of the MAGC Conference to provide valid, useful, and pertinent Professional Development to gifted personnel so that these gifted educators can go back to their school districts and provide and proliferate this training to the other staff members in their districts to ensure best practices pertaining to educating our gifted students. The 2024 MAGC Conference will be held on Wednesday, November 20-Friday, November 22 with a special one-day session for psychometrists, administrators, and new contact people on Thursday, November 21 at the Cadence Arena in beautiful downtown Tupelo.th We hope you plan on being here to professionally develop through sessions containing in-depth content and innovative resources to implement immediately in your classroom and/or school.
